

B2Match

Who?

B2Match is an online matchmaking platform through which participants can start online meetings and finish with meaningful partnerships/**networking experiences**.

Why?

Online events are still part of our everyday schedule. IPIFF would like to give the opportunity to its workshop's participants to **virtually discuss with each other** as if they were taking part in a live event.

How?

Simple! **Register** through the link above and **create your business profile**. Check the participants' list and request a meeting to the person with your same interests or with whom you would like to discuss.

Registration tutorial

1. Click on the IPIFF B2match event page here -- <https://new-horizons-for-insect-farming.b2match.io/> and click on Register:

The screenshot shows the event page for 'New horizons for insect farming' on the B2Match platform. The page includes a header with navigation links (Home, Participants, Agenda, IPIFF website) and buttons for 'Login' and 'Register'. The main content area features a large graphic with the event title, subtitle, and date (May 13, 2022). Below the graphic, there is a 'Register now' button with a deadline of 'Open until 13 May 2022'. The page is organized by IPIFF, as indicated by the 'ORGANISED BY ipiff' logo. The event description states: 'The International Platform of Insects for Food and Feed welcomes you to: New horizons for insect farming: the role of research and innovation in strengthening cross-border collaboration'. The event is an online workshop on May 13, 2022, from 2 PM to 4 PM (Brussels time). The description further explains that the European insect sector is a leader in terms of patents and that the workshop aims to facilitate research collaboration and raise awareness about the European and global needs of tomorrow's food systems.

- You may register via LinkedIn, Google or via email address;
- Once registered, please click on the participant type 'Participant/non-IPIFF Member' to purchase your ticket (30 euros paid via Paypal);
